Evening Schools

Evening schools are held during the winter months in the Drury, Houghton and Greylock buildings; the sessions consisting of 40 evenings. In order to keep up the interest and to prevent the Christmas holidays from interfering with the attendance, a vacation of two weeks is granted, thus dividing up the session into two parts.

The course of study includes all the ordinary branches taught in day primary and grammar schools, as well as such branches of high school work as are most useful in ordinary walks of life.

The evening schools are under the same efficient supervision of Superintendent Hall, that is found in connection with our day schools. While the work done cannot compare in amount, with that completed in the ordinary primary and grammar courses it proves sufficient in quantity to be of the greatest aid to those who most need it, and who are compelled by law to attend the evening school.

Training School,

See Mark Hopkins school.

Candidates for admission to any of the Normal schools must have attained the age of seventeen years complete, if young men, and sixteen years if young women, and must be free from disease or infirmity which would unfit them for the office of teacher. They must, 1, present certificates of good moral standing; 2, give evidence of good intellectual capacity (records of their scholarship standing in the high schools are desired); and 3, be graduates of high schools whose courses of study have been approved by the board of education; or 4, they must have received, to the satisfaction of the principal and board of visitors of the school, the equivalent of a good high school education. Successful experience in teaching is allowed to be taken into account in the determination of equivalents in the entrance examinations.

For 1900 and thereafter, until further notice, the examination will be on the following groups of subjects:

1. Languages—(a) English, with its grammar and literature; and (b) one of the three languages, Latin, French and German.

2. Mathematics—(a) Arithmetic, (b) the elements of algebra, and (c) the elements of plane geometry.

3. History and Geography—The history and civil government of Massachusetts and the United States, with related geography and so much of English history as is directly contributory to a knowledge of United States history.

4.—Science (a) Physical geography, (b) physiology and hygiene, (c) physics, (d) botany, and (e) chemistry.

5. Drawing and Music—(a) Elementary, mechanical and free-hand drawing, with any one of the topics—form, color and arrangement, and (b) musical notation.

Records of Scholarship.

The importance of a good record in the high school cannot be overestimated. Reasonable allowance in equivalents will be made in case a candidate, for satisfactory reasons, has not taken a study named for examination.

Oral Examinations.

Candidates will be questioned orally either upon some of the foregoing subjects or upon matters of common interest to them and the school, at the discretion of the examiners. In this interview the object is to gain some impression about the candidates' personal characteristics and their use of language, as well as to give them an opportunity to furnish any evidence of qualification that might not otherwise become known to their examiners.

Written Examinations.

The written examinations occupy two days in order to lessen the strain on the candidates and allow proper time for the correction of papers. In each subject several questions are submitted, from which the candidate selects the required number.

Times of Examinations,

Entrance examinations for candidates wishing to enter in September will be held:—The first examination on Thursday and Friday June 27 and 28; the second examination on Tuesday and Wednesday, September 10 and 11. Preliminary examinations are allowed in June. Candidates are advised to present themselves at the first examination. New classes will be admitted only at the beginning of the fall term.

General Two Years' Course of Study,

This course is designed primarily for those who aim to teach in public schools below the high school grade.

Three Years' Course,

This course includes the subjects of the two years' course and additional elective studies from the mathematics, science, language, art and psychology. This course will fit graduates for highest grammar grades and departmental teaching.

Kindergarten Course,

This course extends through a minimum of two years and includes such studies of the two years' course as immediately pertain to kindergarten work, instruction in the history and theory of kindergartens, and practice in teaching.

Special Course For Teachers,

Teachers of several years of successful experience in teaching, who give evidence of maturity, good scholarship, and of aptness to teach, may, with the consent of the principal and of the board of visitors, select a course, including the course in psychology and pedagogy, and when such course is successfully completed they shall receive certificates for the same.

Expenses,

Tuition is free to all residents of Massachusetts who declare their intention to teach in the public schools of Massachusetts. For others the tuition is fifty dollars a year, beginning September, 1901. Text books and supplies are free as in the public schools. State aid to a limited extent may be granted to deserving persons, citizens of Massachusetts, after they have been in attendance for at least one term, provided they do not live in towns where Normal schools are situated.

Rules and Regulations

—OF THE—

Board of Health.

The Board of Health of the City of North Adams hereby makes and publishes, as required by the Public Statutes of the Commonwealth of Massachusetts, the following rules and regulations for the public health and safety:

Extract from the Public Statutes, Chapter 80, Section 18.

And whenever there is in such city a privy vault so situated which, in the opinion of the Board

of Health of such city, is injurious to the public health, said Board shall declare the same to be a nuisance, and forbid its continuance, and sections twenty-one to twenty-three inclusive of chapter eighty of the Public Statutes shall apply to such nuisances so declared.

Sec. 2. This act shall take effect in any city of the Commonwealth when accepted by the City Council thereof.

Adopted by the City Council April 6, 1896.

Chapter 312, Acts of 1892.

An act relating to the repair of private drains in streets or ways.

Section 1. Every owner of an estate that drains into a private drain in a public or private street or way, who shall neglect to put such drain in good repair and condition for ten days after being notified by the Board of Health of the city or town that the drain is out of repair and condition, shall be liable to a fine not exceeding twenty dollars for every day that such neglect continues after the expiration of said ten days.

Sec. 2. This act shall take effect in any city when accepted by the City Council thereof, and in any town when accepted by a majority vote of the voters of such town present and voting at a meeting of said town duly called for that purpose. (Approved.)

Adopted by the City Council of North Adams, April 6, 1896.

Rule 1. Every tenement in said city used as a dwelling house shall be furnished with a sufficient drain, underground, to carry off the waste water into a common sewer or reservoir; and also with suitable water closets, or with a privy, the vault of which shall be underground, built and kept in the manner prescribed in these rules, and of sufficient capacity for the number of occupants in such tenement.

Rule 2. Every vault or privy shall be so constructed that the inside of the same shall be at least three feet from the line of every adjoining lot, unless the owner of such shall consent or agree otherwise; and also three feet from every street, lane, passageway or public place; and every such vault or privy shall be built in a thorough and substantial manner and kept water tight, and its contents shall never be within eighteen inches of the surface of the ground. Whenever any privy or vault shall become offensive the same shall be cleansed.

Rule 3. No privy, cesspool or vault shall be opened in any manner or time than at such time and in such manner as the Board of Health may direct; and no person shall remove or carry through any public street, highway or square of the city the contents of any privy or vault, unless the person removing the same, and the cart, wagon or conveyance in which the same is carried, shall be licensed for such purpose by the Board of Health.

All such vaults shall be thoroughly cleaned out and the contents thereof removed once in each year, and oftener if the Board of Health so direct.

Rule 4. No sewer drain not water tight shall be allowed to pass within twenty feet of any well or other source of water used for culinary purposes, and no person shall allow any pool or stagnant water to be and remain upon his premises after notice to remove the same by the Board of Health.

Rule 5. The owners or occupants of estates abutting on a public sewer shall cause such estates to be connected by proper drains with public sewer. Whoever neglects or refuses to comply with such regulations shall be liable to a fine not exceeding twenty dollars for each day that such neglect or refusal continues.

Rule 6. No person shall permit the drainage of any building to enter any lake, pond or stream within the limits of the City of North Adams, the water of which is used for domestic purposes.

CLEANLINESS OF HOUSES AND PREMISES.

Public Statutes, Chapter 80, Section 24, provides: "The Board when satisfied upon due examination that a cellar, room, tenement or building in this city, occupied as a dwelling house, has become, by reason of the number of inhabitants, want of cleanliness or other cause, unfit for such purpose, and a cause of nuisance or sickness to the inhabitants or the public, may issue a notice in writing to such occupants or any of them requiring the premises to be put in proper condition as to cleanliness; or if they see fit, requiring the occupants to quit the premises within such time as the Board may deem reasonable."

Rule 7. No dwelling, or any part thereof, within the city shall be used for the sale, storage, sorting or handling of rags, without a written permit from the Board of Health.

Rule 8. No person shall collect, remove or carry in or through any of the streets, lanes, avenues, places or alleys within the City of North Adams, the contents of any cesspool, vault, privy or privy well, the drainage of any stable, dwelling house, slaughter house, or other building in the city, unless expressly licensed therefor by the Board of Health, upon such terms and conditions, and by such methods, as the Board may deem that the public health requires, and upon failure to comply therewith, the license shall be forthwith revoked and canceled. No privy, vault or cesspool shall be cleaned between 6 p. m. and sunrise.

Rule 9. No putrid, decaying or decayed animal or vegetable matter shall be allowed to remain in cellars or outbuilding. No fish, slaughter house offal or other decaying and offensive animal or vegetable matter shall be left or permitted to remain upon the land for purposes of fertilization without being plowed in or otherwise rendered inoffensive.

Rule 10. Every owner or occupant of any building in this city shall keep such building and the yard belonging thereto free from all filth and substances liable to produce offensive odors, especially fruit, meat and vegetable cans.

Rule 11. No person shall burn on premises occupied by him any garbage, refuse woolen, silk, leather or India rubber goods, kerosene or other substances so that the same shall evolve offensive odors and gases while burning.

Rule 12. No person shall deposit or permit to be deposited by any one occupying his premises, any house offal, bride, bones, dead animals, old leather, decayed fruit or vegetables, or any other rubbish in any streams, ponds, catch basin, street, lane, alley or public grounds of the city. Further, no person shall clean or wash fish or meat upon any street, lane, alley or public grounds of the city.

Rule 13. No person or persons shall deposit ashes or rubbish in any places within the city limits except in such places as shall be designated by the Board of Health.

Rule 14. No owner or occupant of land abutting on a private passageway, and having the right to use such passageway, shall suffer any filth or waste or stagnant water to remain on that part of the passageway adjoining such land.

Rule 15. No workman or other person shall commit any nuisance in the cellar of any building while the same is in process of construction.

Rule 16. The owner or lessee of any lodging or tenement house within the limits of the city shall, when in the opinion of the Board of Health or its duly authorized agent, it is deemed necessary, whitewash, paint or otherwise clean and make wholesome the walls and ceilings of the rooms and passageways of the building.

HOUSE OFFAL.

Rule 17. Every house shall be provided with a suitable water-tight covered receptacle to keep garbage and swill until the same is removed by the licensed scavengers. This receptacle shall be kept covered at all times except when depositing or removing the garbage. It shall be kept where it shall be convenient of access.

Rule 18. No person shall deposit in the garbage to be taken by the authorized scavengers any tin cans, water (dish water not excepted), ashes, glass, sweepings, oyster and clam shells, sawdust, corkdust, old boots or shoes, dead animals, lawn clippings nor any poisonous substances. Any garbage containing foreign matter of the kind enumerated above must be cared for by the owners at their expense.

Rule 19. No person shall go about, in or through the streets, squares or highways of the city collecting or removing swill, offal, butcher's waste, soap grease, rough tallow or slaughter house refuse unless duly authorized and licensed by the Board of Health.

Rule 20. All such refuse collected and carried through the streets, squares or highways as before provided shall be put and carried in a close covered vehicle, box or other tight vessel from which no odors can escape and which shall at all times, when not necessarily open for the purpose of depositing the material collected therein, be kept securely covered. If any of the contents shall be spilled or fall upon any street, walk or premises, it shall be the duty of the keeper or driver to replace the same and

Rule 21. The conditions upon which licenses to occupy buildings as livery or boarding stables shall be as follows:

Section 1. No person, party or corporation shall erect, occupy or use any building for a stable for more than four horses within the fire limits which the City Council may from time to time establish, unless licensed so to do by the Board of Health.

Any physician who may know of or be called to a case of either of the diseases specified in the foregoing regulations, shall at once report such case to the Board of Health.

Rule 33. No person shall enter any hospital establishment for the care of contagious disease or the grounds surrounding the same without a written permit from the Board of Health.

All persons infected with either of said diseases who cannot be properly quarantined, may be removed according to law, to such hospital or other place as the Board of Health may direct, and no person shall obstruct, hinder or oppose such removal, and when any person dies of either of said diseases, the body shall be buried under direction of the Board of Health, and no person shall obstruct, hinder or oppose such burial.

Rule 35. All bedding or other personal property, liable to propagate any of the diseases mentioned in Rule 32 shall be at once properly cleansed and fumigated or destroyed, and the Board of Health, if they deem it expedient, may cause the same to be so cleansed or destroyed.

Rule 39. Immediately upon recovery, death or removal of a person afflicted with contagious disease the room or rooms occupied by the patient must be disinfected to the satisfaction of the Board of Health. This work is performed by Inspectors of the said Board.

Rule 40. In all cases of diphtheria and membranous croup, the patient will be held in quarantine until the attending physician or the Board of Health shall have received a negative culture from the State Board of Health.

SCHOOL ATTENDANCE.

Rule 41. No child ill with whooping cough, measles, purulent ophthalmia, chicken-pox, mumps or any other contagious disease is allowed to attend school, nor is any child allowed to attend school in the city while any member of the household to which such child belongs is ill with small-pox, diphtheria, scarlet fever, measles or membranous croup during a period of two weeks after the death, recovery or removal of such person. The length of time must be certified to in writing by the Board of Health.

Rule 42. No pupil who by reason of the foregoing rule, has been debarred from school attendance, shall be readmitted to any school in the city without a written permit from the Board of Health. Such permit may be issued when the attending physician has certified in writing to the Board of Health that in his opinion the child may attend school without danger of communicating any contagious disease.

Early Symptoms of Measles, Scarlet Fever and Diphtheria.

The early symptoms of these disease may often be recognized by teachers in the schools and in any case a physician's opinion should at once be demanded when suspicion is aroused.

In the case of Measles the early symptoms would be as follows: some cough, suffusion of the eyes, running at the nose, feverishness and lassitude. The eruption generally occurs first about the forehead, neck and face, and is of a reddish color and of a circular or semi-circular form.

In Scarlet Fever; general lassitude, feverishness, headache, sore throat, vomiting, and a fine red eruption about the ears, neck and shoulders, are the first symptoms.

In Diphtheria: general symptoms resembling a cold, with some rise of pulse and temperature, sore throat, are first observed, and should arouse suspicion.

In fact any case of sore throat found in the schools, a physician's examination should most properly be asked.

These general facts if borne in mind might in some cases lead to the detection of a disease which would be a source of great danger to the school at large if allowed to progress until the child was actually sick enough to be obliged to stay out of school.

If the foregoing rules and regulations are carefully observed the closing of the public schools for epidemic diseases will seldom, if ever, become necessary.

With the greatest of care it is often hard to say how soon a patient may with safety return to school after once having been sick of contagious disease, and it becomes all the more necessary that the judgment in such cases should not rest with too many, but should come from the Board of Health alone.

After any child has once been debarred from school attendance it shall not be readmitted until it shall have first presented the teacher with a certificate. This certificate will in all cases be issued by the Board of Health and should alone be recognized.

Rule 43. The Principal of any school upon the receipt of information satisfactory to him that any pupil attending school under his charge has visited a household where at the time of such visit, small-pox, diphtheria, membranous croup, measles or scarlet fever existed, is authorized to suspend such pupil for a period of two weeks next following such visit.

Rule 44. When children are absent from school on account of illness, and whenever the Principal has reason to suspect the existence of contagious disease in any household, he is authorized to exclude pupils from school until the case may be properly investigated. The teachers are required to exercise caution in

sending pupils to the houses of absent pupils to ascertain the reason for such absence, specially forbidding them to enter the house to which they are sent. Pupils are not permitted to be sent where contagious diseases are believed to exist in the household of absent pupils.

Rule 45. The body of any person dying, who has previously and within twenty-four days from date of death been reported by the attending physician to the Board of Health, as having had cholera, small-pox, diphtheria, membranous croup or diphtheretic croup or scarlet fever, shall within twenty-four hours, be interred.

Rule 46. Whenever quarantine has been established by the Board of Health upon or in any house within said city in which any contagious or infectious disease exists, by a placard affixed to such house, such quarantine and all the provisions thereof shall be maintained until the recovery or death of the person or persons affected with such disease has been reported to said Board, and until the said house has been thoroughly disinfected and such placard removed by said Board.

Rule 47. Two weeks after the disinfection of any such house so quarantined has been released by the Board of Health of said city, a written permit shall be issued by said Board authorizing the return and re-admission to school of any child or children resident in such house; provided that no other case of contagious or infectious disease shall have appeared in such house in the meantime.

Rule 48. In excluding pupils from any house in which small-pox, scarlet fever, measles, diphtheria and membranous croup exists, two or more buildings must be considered as one house if there is any direct communication between them; or if it is possible to enter or leave the two residences by means of the same hall, stairway or door.

Rule 49. If it comes to the teacher's knowledge that any pupil visits the house infected or attends the funeral of any person dying of those diseases, such pupil must be excluded at once and the case referred in writing to the Board of Health.

Rule 50. Teachers in the public schools are directed to follow the letter and intent of these rules and refer all questions that may arise to the Board of Health. Superintendents and officers of Sunday schools are requested to comply with these regulations as far as practicable.

DEATHS, BURIALS, CEMETERIES, ETC.

Rule 51. It shall be the duty of every Superintendent of a cemetery or other person in charge of any cemetery or burying-ground within this city, to receive permits issued for burials in said cemetery or burying-ground; to preserve the same and to furnish the Board of Health of said city, upon Monday of each week, a written report, upon blank forms to be furnished upon application by said Board, of all burials or caused to be made by him.

Rule 52. It shall be the duty of the undertaker, near relatives or any other person having charge of the funeral or burial of the dead body of any person within said city who has died of Asiatic cholera, yellow fever, typhus fever, small-pox, scarlet fever, diphtheria, membranous croup, to keep such funeral strictly private and to permit no other person or persons excepting the immediate members of the deceased person's family who are resident at the place of death, and the officiating clergyman or minister, to be present thereat; and to convey such dead body directly from the place of death to the place of burial and in no other vehicle than a hearse, and the funeral to take place within twenty-four hours after death.

Rule 53. It shall be the duty of the undertaker, near relatives and of any other person or persons within said city, who shall have charge of the burial or shipment, or of the preparations for the burial or shipment of the dead body of any person who has died of any contagious or infectious disease, to observe and obey the following rules and regulations embodied in this section:

(a) The dead body of any person who has died of any contagious or infectious disease shall be thoroughly disinfected, and shall not be exposed to the view of any person who is not necessarily engaged in the preparation of the same for burial.

(b) The dead body of any person who has died of any contagious or infectious disease shall not be placed or kept in any receiving vault, in any cemetery or burying-ground, unless such dead body shall be first enclosed in a hermetically sealed zinc-lined or other metallic casket.

(d) In preparing for shipment the dead body of any person who has died of scarlet fever, diphtheria or membranous croup, the said body shall be wrapped in a sheet saturated either with a solution of bichloride of mercury of a strength of one part in two thousands, or with a solution of carbolic acid of the strength of one part in forty. The said body shall then be enclosed in a tightly sealed casket, and said casket shall be placed in a zinc or tin-lined box hermetically sealed.

Rule 54. Every grave in which any dead body shall be buried within the city shall be dug to a depth of not less than five feet below the surface of the ground.

Rule 55. No new cemetery, burying-ground, vault or tomb for the reception and burial of dead human bodies shall be established within said city, without a permit so to do first being granted by the Board of Health of said city. No additions shall be made to those already in use without the same authority.

Rule 56. All licenses granted by the Board of Health may be revoked at the pleasure of said Board.

The Board of Health of the City of North Adams do hereby make and establish the following regulation:

That no person shall expectorate upon the floor, seat or other part of any coach, street car, or other public conveyance.

"Any person violating the provision of this regulation shall forfeit a sum not exceeding one hundred dollars."—P. S., Chapter 83, Section 18.
